Name:	Thalita Saniyya Aqilla Putri
Current Position:	TI-4F
Date:	6 Juni 2023

### **STEP 1: Knowing Yourself**

The first step in planning your career involves evaluating and understanding your aspirations; strengths; interests; values and personal influences. Complete a self-assessment (consult a career advisor or complete an on-line assessment) and record your strengths, interests, and competencies.

#### My Strengths:

Kekuatan saya adalah saya mampu bekerja dalam tekanan, dapat membagi waktu dalam pekerjaan, dapat bekerja dalam tim dan secara individual, dan senang belajar hal baru.

.

#### My Skills and Competencies:

- Bahasa pemograman Laravel
- Dasar database
- Bahasa pemograman flutter
- Manajemen sebuah project
- Dapat bertanggung jawab
- Kemampuan memecahkan masalah
- Beradaptasi dengan cepat dan baik

#### My Interests:

Saya tertarik memperdalam mempelajari full stack developer

#### My Values:

Saya memiliki pengalaman dalam membuat website di bidang full-stack developer seperti website e-commerce, website profil sebuah instansi, website travel, website kasir.

Discuss your skills and strengths with friends, a career guidance advisor at the careers office or with a mentor to gain a better understanding of all the personal factors that influence your career options and write down additional information that may be important.

Programming website yang saya miliki akan sangat membantu saya untuk dapat mencapai pekerjaan yang saya inginkan.

## STEP 2: Gather information about the career options in your field of specialisation

Look at job advertisements in your field and record the minimum and ideal job requirements and compare these requirements with your qualifications, skill set, and attributes.

Lowongan pekerjaan: Full stack developer (Front-end dan Back-end) dengan skill yang diperlukan ialah node.js, Laravel, React.js, Web development dan Web Design. Kemampuan yang sudah dimiliki ialah web programming, dasar database, dasar desain antarmuka dan pengalaman pengguna dalam website.

## STEP 4: Making Choices

Consider the suitability of each option and decide (with the assistance of an advisor or mentor) which one is the best match to your aspirations and career goals.

Dari minat dan kemampuan yang saya miliki, tujuan karir saya sebagai full stack developer sudah sesuai. Tetapi, masih banyak kemampuan yang harus saya tingkatkan agar dapat mencapai pekerjaan tersebut.

Based on the choices you have made, and the development opportunities you have identified now write your goal(s) for the short and medium term. Aim to make each goal as specific as you can.

### Goal 1

Goal jangka pendek saya dalam karir full stack developer:

- Meningkatkan kemampuan dalam hal full stack developer
- Membuat portofolio projek yang telah dibuat

Write down what you need to do to achieve this career goal:

- Mengikuti kursus yang sesuai dengan tujuan karir
- Mempelajari secara otodidak sesuai bidang

### Goal 2

Goal jangka menengah saya dalam karir full stack developer:

- Memperoleh gelar sarjana di bidang ilmu komputer
- Memperoleh pekerjaan yang sesuai dengan bidangnya

Write down what you need to do to achieve this career goal:

- Menyelesaikan jenjang pendidikan
- Mencari lowongan pekerjaan

## STEP 5: Make it Happen

To achieve your goals, you need to have an agreed course of action. You (and your advisor/mentor) need to have a clear understanding of what steps you will be taking, the commitment required by you and relevant time frames.

You are now ready to detail what you have to do to make things happen.

### Agreed course of action/action plan

Start date	Completion date	Skill, experience, knowledge to be gained	How will this be gained? (e.g., on the job experience, formal/informal seminars/courses, coaching/mentoring, etc.)	Provider (e.g., workplace educator, university, coach/mentor, etc.)
